Graduate Attributes

- The KANNUR UNIVERSITY aims at providing an environment that allows students to maximize their potential.
- In meeting the challenges of today's tough and changing world our consultation with staff and students resulted in defining distinctive characteristics for the Kannur University Graduate.
- These explicit behaviours, values, skills and dispositions that we expect our students to develop will best prepare them for their future careers and help the University to reshape student learning and assessment activities.
- Graduate attributes of KANNUR UNIVERSITY can be understood as the qualities, values, attitudes, skills and understandings that the university sets out as being important for students to develop by the end of their studies.
- These attributes are both intended to equip them for future employment and as critical and responsible citizens, contributing to the social and economic well being of society.
